WORK EXPERIENCE

React Developer Internship
Alternative Derivatives Exchange

05/2025 - 11/2025   *Cacak*

Project

- I worked on building high-performance trading applications using React, TypeScript, Zustand, SharedWorker, WebSocket, and IndexedDB. I focused on creating real-time, data-driven interfaces — including virtualized tables and custom CRUD operations — optimized for speed, scalability, and smooth user experience. My work involved deep optimization of state management, data synchronization, and real-time rendering, ensuring reliable and efficient performance in demanding trading environments.

- **Tech:** React, SharedWorker, Zustand, Websocket, IndexedDB
